INDEX

ACCLIMATIZATION, to high and low temperatures, effect on rate of respiratory metabolism in teleost fish, 361.

Activation, and acid formation in frozen and thawed Arbacia punctulata eggs, 345.

——, influence of iodoacetate on, in Arbacia punctulata eggs, 351.

AMBERSON, WILLIAM R. *See* Bosworth and Amberson (abstract), 339.

——, —— —. *See* Stanbury and Amberson (abstract), 339.

Amoeba dubia, mitosis in, 447.

Anesthetics, susceptibility to, and respiratory metabolism in fishes, 368.

Antuitrin-S, effects on male genital organs of lizard during seasonal atrophy, 143.

Annulus ventralis in true intersexes, Cambarus, 269.

Arbacia punctulata eggs, frozen and thawed, acid formation in, 345.

—— —— —, influence of iodoacetate on activation, 351.

Autotomy, induced, regeneration following, in Thyone, 82.

Avena, phototropic responses in relation to intensity and wave-length, 305.

BACHEM, A., AND M. A. DUSHKIN. A study of bacterial sensitivity to ultra-violet radiation, 109.

BARNES, T. CUNLIFFE. Salt requirements and orientation of Ligia in Bermuda, III, 259.

Blood, chloride and total osmotic pressure, marine teleosts, 245.

BOSWORTH, MILLARD W., AND WILLIAM R. AMBERSON. An adaptation of the manometric Van Slyke apparatus to the study of the respiration of marine animals (abstract), 339.

BOZLER, EMIL. Mechanical properties of smooth muscle (abstract), 343.

BRAND, THEODOR V. Methods for the determination of nitrogen and carbon in small amounts of plankton, 221.

BUDINGTON, R. A. The tolerance of acetyl-salicylic acid by sperm and eggs of Arbacia (abstract), 335.

CAMBARUS, annulus ventralis, in true intersexes, 269.

Carbon, determination, in plankton, 221.

Centrifugal force, influence on cleavage plane and mitotic figure of Parechinus egg, 287.

—— ——, influence on surface phenomena in fertilized sea urchin egg, 298.

Centrifuged eggs of Ilyanassa, formation of giant polar bodies, 403.

Centrioles of Pseudotrichonympha and their rôle in mitosis, 46.

CHAMBERS, ROBERT. *See* Hibbard and Chambers (abstract), 332.

——, ——. Studies on the physical properties of the plasma membrane (abstract), 331.

CHASE, H. Y. The effect of temperature on the rate of the fertilization reaction in various marine ova, 415.

——, —. —. The origin and nature of the fertilization membrane in various marine ova, 159.

Chloride and total osmotic pressure in blood of marine teleosts, 245.

Chromosome cycle of Phenacoccus, 462.

—— structure, in salivary gland cells in Sciara, 126.

CHURNEY, LEON. The quantitative determination of mitotic elongation (abstract), 333.

CLARK, LEONARD B. Dark adaptation in the insect Dineutes assimilis (abstract), 329.

Cleavage plane, egg of Parechinus, as influenced by centrifugal force, 287.

CLEMENT, ANTHONY C. The formation of giant polar bodies in centrifuged eggs of Ilyanassa, 403.

CLEVELAND, L. R. The centrioles of Pseudotrichonympha and their rôle in mitosis, 46.
——, —. —. The intranuclear achromatic figure of Oxymonas grandis, sp. nov., 54.
CLOWES, G. H. A. *See* Krahl and Clowes (abstract), 340.
